

morning, did you walk or take your Ford wagon?

A I am positive I took the car; I always took the car; never walked down if I could help it and Mr. Piard, who saw me that night on the beach says he saw me at the train that morning. I don't remember seeing him, but he says he did; he says he saw me the night before on the beach and he says he saw me that morning and he-- did I tell you this before, that he fixes the date because he had to go to the hospital --

Q Yes.

A Now, you asked me about Howard Price . Did I tell you about what he said? I think I did.

Q Yes, you did.

A I think I did. I told you what Mayor Van Camp said. I told you about Arthur Applegate.

Q How about McGonigel?

A McGonigel, I am almost positive that I saw Mr. McGonigel fishing on the beach that evening but four years ago I could have told you exactly whether he was or not and it is in my mind that I mentioned him four years ago as having seen me, but I won't say for certain whether he was or not.

Q Have we got his address?

MR. PALZER: Mrs. Stevens has, I think.
